Heather,

I've loaded up the Electrolux documents to the N; Drive. There's only 8 SEMD docs under the site ID mentioned in the FOIA, but I believe there are a few related docs that will be under the title "Downtown Wells".

If the requestor is interested in any of those items we can easily accommodate since there are only a handful of Downtown Wells docs anyway.

I'll have to circle back next week to finish up more redaction and review etc.

Beth and Heather,

The requester seems very interested in getting records for this site as quickly as possible. Would ECAD and SEMD have relevant records, and if so, are there indexes available?

Thanks!

Let's confirm if SEMD and ECAD have any points of clarification, including if SEMD has an index, too. Once we confirm we will send a clarification letter to the requester. I imagine this request will exceed the \$500 limit as well.

The requester called me regarding this request today. They are wanting a timeline, and if possible a rolling release of any records we might have. They seem to be in a big hurry to start receiving records as soon as possible.

Copies of all records, including but \*not limited to all correspondence, emails, memoranda, reports, and notes, concerning the former Electrolux Facility located at 601 East Central Street, Jefferson, Iowa, 50127 (EPA ID No. IAD047055140).

I have assigned this to LCRD, ECAD and SEMD. LCRD has already responded with an index, attached. Mike Lancaster felt that it "seems like the requester would want all of the items on the Document Inventory – I will ask RRC how much it will cost to pull all the documents (correct?) – keep me posted on how to respond to Fatima."

What are our next steps on corralling this one?
